Naval sector solutions

**Weapon controls**
Systems for weapons: special electric motors, control and power units, HMI, optical sensors, attitude reference units, with ballistic calculation and tracking of the target features.

**Day cameras**
Eurocontrol supplies different types of day cameras with double POV (wide and narrow), or with continuous zoom.

**Electro optical multi sensors**
Eurocontrol designs and manufactures Electro Optical Directors (EOD) for surveillance and target tracking, to be integrated with onboard Fire Control System (FCS).

**AC Motor Starters**
Eurocontrol has the experience and the capabilities to realize customized products, also in case of replacement of obsolete or outdated systems.

**DC Motor Starters**
Eurocontrol has the experience and the capabilities to realize customized products, also in case of replacement of obsolete or outdated systems.

**UPS**
Eurocontrol designs and manufactures different UPS systems, mainly for Naval applications on board of MCMV (Mine Counter Measure Vessels) and other military ships.

**Servomotors**
AC and DC motors and generators, servo-motors, high precision linear actuators, motor generator sets and custom designed slip-ring assemblies tailor made solutions.

**Stabilized platforms**
Eurocontrol projects, develops and manufactures gimbals and stabilized/rotating platforms for Naval and Land sectors.

**FULL DESIGNED SERVICE**
Our full suite of services offers a fully integrated design and manufacturing solution. The company's engineering team provides system engineering expertise for mechanical and electromechanical units and subassemblies, hardware and software.

**TAILOR MADE SOLUTIONS**
A team of highly trained and experienced application engineers, provides Eurocontrol SpA with the resources to solve complex problems and satisfy all a customer's requirements, delivering competitive edge and value for money.

**PROTOTYPING, TESTING AND MANUFACTURING**
Our problem-solving approach to design, combined with virtual prototyping and simulation techniques, ensures that all system lifecycle issues have been resolved, from definition of requirements to the simulation of operating environments.

**SYSTEM SUPPORT SERVICES AND ASSISTANCE**
Eurocontrol SpA provides system support services directly to end users and system manufacturers worldwide, guaranteeing assistance for logistics and maintenance feedback for at least 10 years from commissioning.
